PROFILE SUMMARY

Creative and driven CSE student with expertise in Java, web development, and building scalable digital solutions. Strong problem-solving skills with a passion for learning and delivering innovative projects.

EDUCATION

Bachelor of Engineering, Computer Science

2023-2027

Maharaja Institute of Technology, Mysore

PROJECTS

Title	Description
AI-Based Driver Drowsiness Detection	Developed a real-time AI-based driver drowsiness detection system using computer vision techniques (MediaPipe, EAR/MAR) with a Flask web interface. Enhances automotive safety through intelligent fatigue monitoring.
AI-Based Industry Safety System	Developed an AI Safety Monitor using YOLOv8 and computer vision to detect safety helmet violations and fire hazards in real time. Triggered visual indicators and audio alerts to enhance industrial and workplace safety.
Banking Database System	Developed a secure full-stack banking system using Flask, Python, and SQLAlchemy, implementing real-world banking workflows. Features: Account management, transactions, and loan processing with Aadhaar & PAN validation, OTP-based authentication, role-based access control, and email notification.

SKILLS

TECHNICAL SKILLS – Python | C | Java | Flask | MediaPipe | OpenCV | Git | GitHub | MySQL | SQLite | HTML | CSS | JavaScript

SOFT SKILLS – Communicator, Planner, Leader, Good time management, Leadership

CERTIFICATIONS & ACHIEVEMENTS

- Certified in Artificial Intelligence Fundamentals by IBM SkillsBuild
- Certified in AWS Cloud Practitioner Essentials by AWS
- Certified in Advanced Java by LearnQuest
- Certified in Cyber Security Technologies by Illinois Tech

PARTICIPATION

- Participated in **HACKATHON – C³** presented by Dyashin Technologies at Bahubali College of Engineering, Shravanabelagola.
- Participated in **HACKMITTEN 2.0** – A National Level Hackathon organised by Maharaja Institute of Technology Thandavapura.
- Participated in **HACKVERSE** – A Stack Forge Hackathon organised by Maharaja Institute of Technology Mysore.
